THERMOFORMED
DOORS & PANELS

Panelform Durostyle combines the hardwearing qualities of a laminate with almost boundless opportunities for individual expression.

Four different categories and price levels reflect the complexity of the design and preparation, while keeping them accessible.

Not only that, but Durostyle products are available in a fabulous range of fashion colours, to suit all interior decors.

Doors

Durostyle doors are created using a thermal laminate which is bonded under heat and vacuum pressure onto pre-moulded moisture-resistant MDF substrate. This provides the opportunity for many different designs to suit individual tastes and still have the hard wearing and scratch-resistant surface of a laminate. They are divided into 4 categories with 4 different price levels depending on the complexity of design and preparation time of the substrate.

Durostyle doors are 18mm thick and available in three different surface finishes. All surfaces are non-porous and easy to clean. Durostyle doors and panels are made from the highest quality materials and are proudly made in New Zealand.

Lincoln – MDF only

Pantry Doors

Frame-style pantry doors, especially those with recessed centre panels require a centre rail both for authenticity in design and for stability. Alternatively doors can be split in height creating the same effect.

Glass Doors

Glass doors are available either with a frame only or with lattice glass beading creating either 4, 6, 8 or 10 frames.

Durostyle: Lattice glass doors in Feather White

Drawer Fronts

Drawer sets are available in a number of different options as shown here depending on the style of door selected and the effect that one is wishing to create.

- Microwave Frames
- Wine Racks
- Roller Door Frames

Accessories

Many accessories are available to match your Durostyle doors including 3 styles of cornice, matching panelling, boxed corner posts, roller door frames, microwave frames and wine rack fronts.

Heat Deflectors

Some flush-mounted ovens are not designed to reflect heat away from surrounding surfaces. For protection against heat damage, Panelform provides heat deflector shields where such ovens are beside Durostyle doors and panels. In some circumstances, dishwashers may also require a deflector for steam depending on the design and configuration of the installation. Incorrect installation procedures will void your Durostyle guarantee.

Colour

The swatches below are but a taste of our colour range. These colours may change periodically as market trends dictate. Please check availability with Panelform prior to ordering.

Please note the colours shown may vary slightly from actual colours due to the printing process of this brochure, so always select a colour based on an actual sample swatch.

Many of the Durostyle colours can be matched with a colour from Panelform's Touchtex range for end panels, toe kicks and open cabinets. Please visit www.panelform.co.nz for the full Durostyle colour selection and a list of colour matches available.

Care & Maintenance

Durostyle doors are made from a moisture resistant MDF, but as with any MDF product, are not waterproof. Care should be taken to ensure they are not exposed to high levels of heat, moisture, steam and humidity and that any accidental spills are wiped up immediately.

For cleaning, we recommend wiping Durostyle doors with a soft damp cloth and warm water, and then drying with a soft dry cloth. A small amount of soap or mild chemical spray may be used for stains that cannot be removed with water. Please refer to the manufacturer's recommendations before using chemical spray.

Do not:

- Use commercial cleaning products, abrasive materials, solvents, thinners or any other strong cleaners to clean Durostyle doors.
- Expose your Durostyle doors and panels to high levels of heat, moisture, steam or humidity.
- Use your kettle, toaster or other heat emitting appliances directly below Durostyle overhead doors.
- Use your kettle, toaster or other heat emitting appliances behind or next to Durostyle doors or panels.

Doing any of these will void your 10 year warranty.

Installation

Durostyle doors and panels in a gloss finish are manufactured with a protective film on the surface to prevent scratching. This film should not be removed until installation is complete.

10 Year Guarantee

Panelform guarantees Durostyle doors and panels will stand the test of time. As manufacturers we have full confidence in our design and workmanship and will guarantee this in all our products for 10 years, subject to the following terms and conditions.

- This guarantee is subject to compliance by the consumer with all Panelform's terms regarding the installation, care and maintenance of the doors.
- Panelform will not be liable for any defects or faults resulting from acts or omissions of anyone other than Panelform or for any cause independent of human control occurring after the goods have left Panelform's control.
- Any claim shall not exceed the original purchase price of the doors or panels manufactured. Panelform will not meet any additional costs of reinstallation or refitting of doors or panels.
- Panelform must be advised in writing of any claim under the terms of this guarantee within 10 years of the date of manufacture of the products.
- The claim is made by the original purchaser of the products.

This guarantee is in addition to the guarantees as contained in the Consumer Guarantees Act 1993 and does not in any way limit the rights which may be available to the consumers under that Act.
